## Play better golf

ANY golfer serious about improving their game can't miss this opportunity.

Renowned American Educational Kinesiology consultant and trainer Jerry Teplitz will be in Melbourne to conduct seminars in February, 2007 especially for golfers.

Teplitz promises Switched-On Golf™ and Par and Beyond: Secrets to Better Golf™ - will transform your game and golfing experience.

His courses are perfect for those who have lost the fun and enjoyment of playing golf or those who get angry with themselves because they never improve and become preoccupied with bad shots.

Switched-On Golf is also a PGA continuing Education Certified Seminar for golf pros being certified which makes it ideal for PGA members looking to further their educational skills.

Teplitz promises golfers new levels of confidence with every swing, a positive attitude – even after a bad shot – and ability to refocus before each shot and to eliminate frustration and mental blocks.

And he's so sure that participants will improve their game that he's offering a 100 per cent, no questions asked, money back guarantee after the course.

Teplitz's seminars are designed to get the body and mind aligned to deliver better results.

How many times has a next tee shot been affected by a poor result on the previous hole?

Teplitz believes this is a common mistake that can be overcome.

"Golf requires you to think clearly and be analytical which are functions of your brain's left hemisphere," he said.

"Golf also requires you to be creative and intuitive which are functions of your right hemisphere."

"To be a truly successful golfer you need to use both sides of your brain at the same time."

"You need an integrated approach."

Teplitz believes his seminars work towards getting both sides of the brain working together.

And the endorsements he's had over the years speak volumes.

"Brain integration is one of the components of the training program Par and Beyond: Secrets to Better Golf."

"The training uses the concept of "muscle checking."

"As a professional speaker and trainer, I have demonstrated this muscle checking concept for over 20 years."

"Audiences have found it both amazing and exciting."

So why is Jerry Teplitz coming to Australia?

He will be in Melbourne for two weeks to teach these amazing and powerful tools to business people and golfers to help them achieve their ultimate best, be it in sales, network marketing, management procedures or on the golf course.

He will also be offering training for people to teach his Switched-On Selling™, Switched-On Network Marketing™, and Switched-On Management Seminars™. Enquiries welcome.

The best part of all these seminars is that the skills are portable and can be used again and again.

Registration for the one-day golfing seminars is limited to 25 people. **One person from each seminar will get the chance to score a hole-in-one for \$1 million.**

The seminars will be held at Patterson River Country Club and Heidelberg Golf Club.

Dates for Patterson River are Wednesday February 14 and Wednesday February 21.

Heidelberg is on Thursday February 15 and Thursday March 1.

Bookings can be made through
